GATE WAY TO JOBS

Conscience: Always try to follow what your heart says .this always gives good results as we all are good at heart! Not telling lies is more advisable than 'speaking truth'. At the end of the day, the softest pillow is your conscience. Your heart is your temple, he lives there for judgment.

Don't join Mobs: 1 is saint, 2 is company, 3 is crowd, 4 or more is mob. "*Man is kind, Men are cruel*". Never join mass agitations or agitated mobs! Associate with only people of refinement, culture, proved integrity and nobility.

Don't be Moody: If you are off mood or in despair, turn to lofty scriptures or read works of great souls or take a leave and simply go on a pilgrimage. Don't evade responsibilities. At the same time, don't add on to your responsibilities by taking new loads or new assignments on your egoistic initiative. Another good way when you are dull is to go to a movie with friends or chit chat with friends or the best is play games like badminton, table tennis, tenni coit, swimming, foot ball etc. But, never spend time alone, never visit alone places like beaches, railway tracks, burial grounds etc. When your mood is not good!

Listen and Understand: God has given man the power of understanding. But, to understand the first step is to listen! Thus, listening is the first step to success. Don't interrupt when someone is talking to you. Be curious and courteous in listening. One common trait of all great personalities is that they are all very good listeners. Remainder, we have 1 mouth and 2 ears, let us maintain 1:2 ratio of Speaking: Listening. A Noble Laureate, a doctor too, said beautifully. "Today 90% of the patients require not a doctor but an audience". And, according to one survey, 70% of the Indian students don't listen at all in the class.

Today, most of the domestic, industrial and commercial problems can be solved if we inculcate the habit of listening. A husband doesn't listen to his wife, a wife doesn't listen to her husband, as a result, children don't listen to their parents. A teacher doesn't listen to his student, that is why the student doesn't to his teacher. A manager has a right to expect his employer to listen to him, only if he himself listens to the employee first. The most difficult and greatest art is 'art of listening'. The mechanical impact of life can be changed through the teachings of the enlightened masters. Listen with heart.
